

## Kirk House Nursing Home

Balance Street, Uttoxeter

**Status:**

Completed May 2008

**Value:**

£450,000

**Client:**

Kirk House Nursing Home

**Description:**

To satisfy changes in legislation and to allow the home to expand, the Practice was commissioned to provide an additional 14no. bedrooms with integral en-suite facilities over two storeys, including ancillary accommodation.

The siting for extension had to be towards therear of the existing home within the confines of a compact site layout.

One of the main challenges was that the home lay within a conservation area and was important to create an addition that was contemporary in architectural style whilst being complimentary and responsive to the surrounding environment and streetscene.
